**Twenty years! Twenty mile stones! Two decades—of SERVICE!
This is the record of our establishment.**

From an humble beginning we have developed what is now considered the largest retail optical business of the South.

This growth we are proud of—but we are even more proud of the thing which made it possible—the confidence of the people.

Since that morning, twenty years ago, when we opened our doors on Plume Street in Norfolk, until today, when we are operating four stores, two in Norfolk and two in Richmond, as well as a photographic finishing plant in Norfolk, we have zealously striven to merit the confidence which the public has placed in us.

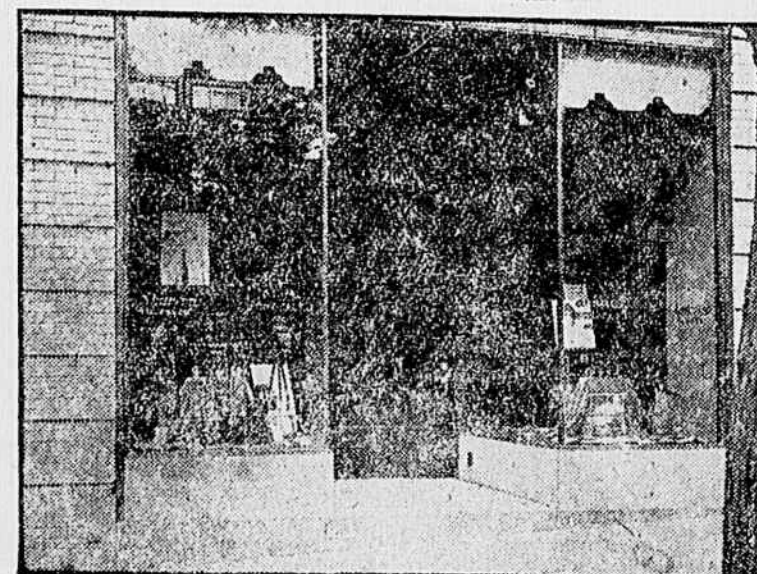

Please accept, on our twentieth anniversary, our deep and sincere appreciation of your past patronage, and be assured of our continual desire to render you the most scientific and perfect optical and kodak service possible.

Cordially yours,
